Have-a-Go Boats

Phil Trueman of the Barry Club, recently produced the four Have-a-Go boats we asked for but very kindly refused to accept any payment for them! Bearing in mind that he has built them complete with motors, prop shafts, couplings, props and everything except the electronics we felt extremely indebted to him. As a result the committee has offered Phil free membership of our Club for the foreseeable future. Once again Phil, many thanks and we look forward to seeing you at Margam.

Thanks also to the Club members who donated batteries and speed controllers. The boats are up and running now and we are looking forward to the children enjoying them.

The four teams looking after the Have-a-Go Boats are headed by :

Eddie Davies, John Yeardeley, Larry Howe and Les Smith
